

CORDURA® BRAND GEAR GUIDE

HILC
INDUSTRIES
Textile Solution Providers Since 1916

CORDURA®
Advanced Fabrics

Life in the military or with a tactical unit is not easy. It can be grueling on the body, the uniform and the gear. That's why you'll find a whole collection of CORDURA® fabrics made for the combat life. Fabrics that are durable, lightweight, dry quickly, and can take what comes with the territory. Get battle-ready with CORDURA® fabrics.

CORDURA® Fabric: Battle Tested since 1967

CORDURA® fabric comes onto the scene in a decade of accelerating change and time of great excitement. The way we all lived, worked and played was being transformed – and CORDURA®'s nylon 6,6 fiber was transforming the fabrics needed in response. Through advances in technology we made it possible to offer a new level of durability that would become the hallmark of the CORDURA® brand for the next fifty years.

Around the globe today, you'll find CORDURA® fabrics worn by men and women at the sharp end of the front line. Keeping the peace, bringing law and order where there's strife, and doing their duty in the most difficult circumstances imaginable. Professionals who give it their best – and deserve an equal level of commitment in return, especially where life and limb may be at risk. With a long heritage of experience in the military sphere, CORDURA® has put this knowledge to work developing new and better solutions to meet the changing face of conflict – whether on the battlefield or on the street. Constantly innovating, and creating new technologies that will help develop the next generations of combat wear. CORDURA®'s commitment – to always keep the safety and wellbeing of the soldier front of mind.

HLC Industries Inc., was founded in 1916 as a supplier of pocket and lining materials for the men's garment industry. It is celebrating its 104th year as a supplier to the textile industry. Today, based in Bala Cynwyd, Pennsylvania, HLC is committed to the same high standards but on a much larger and diversified scale, providing a wide scope of U.S. Military, Nylon Tactical, Aerial Delivery Parachute and Commercial Fabrics.

HLC recently acquired its certification for being an ISO 9001:2015 company.

HLC offers an "in-stock" program of Invista™ CORDURA® TrueLock™ fabrics in both 500D & 1000D in the following solution-dyed nylon colors: Coyote 498, Black, Ranger Green, Tan 499 and Wolf Gray. In addition, HLC offers Laminated Fabrics in various solution dyed CORDURA® color combinations and deniers for use in laser-cut tactical equipment.

THE K19 WAS DESIGNED FOR ISRAELI
SPECIAL FORCES OPERATORS TO BE
FULLY LOADED BUT MORE COMFORTABLE
THAN IN ANY OTHER PLATE CARRIER
AND LIGHT ON THEIR FEET.

K19 Plate Carrier Part Number 8055M/L

AGILITE

THE K19 IS THE ULTIMATE MODERN PLATE CARRIER. DESIGNED, TESTED AND BATTLE-PROVEN IN ISRAEL AND BEHIND ENEMY LINES WITH SOME OF THE IDF'S MOST ELITE UNITS.

The K19 is considered to be the most comfortable plate carrier on the market today but needed to be built out of something that was as tough and durable as it was lightweight.

We decided on 1000 Denier Invista™ CORDURA® that we import to Israel specially, because we require the best. The K19 is used by Special Operations Forces not just in Israel but all around the world and where are clients go, there can be no failures, even in the harshest conditions or most unforgiving terrain.

It has a one-size-fits-all cummerbund and multi-size plate bag absolving the need to make complicated and risky sizing choices when buying. You know it will always fit you or members of your team regardless of your loadout or mission set. This is also important for procurement professionals who can be sure it will fit all their guys (or girls) well.

The K19 has traveled many miles and has crossed borders into some of the most dangerous places in the world in order to make it one of the most detailed and thought out plate carriers on earth.

COVERT ARMOR INTERNATIONAL LLC.

THE PROFESSIONAL APPEARANCE BALLISTIC CARRIER WITH
VISIBLE AND COVERT LOAD CARRYING CAPACITY

The C4 front opening uniform armor carrier by Covert Armor was designed for the patrol officer to remove equipment from the duty belt and put it up on the vest to help relieve lower back stress without interfering with the ability to add rifle plates.

Made from 500D CORDURA® fabric the C4FO was designed from the input of officers and offers a complete assortment of duty pouches as well as numerous concealed pockets and a cooling mesh interior. The entire vest is color matched to prevent the loss of the traditional professional look that every administration requires.

Exo Mtn Gear pack systems

OUR PACK SYSTEMS ARE USED IN HARSH CONDITIONS AND UNDER DEMANDING CIRCUMSTANCES. CORDURA® FABRICS HAVE PROVEN, TIME AND TIME AGAIN, TO BE THE BEST FABRIC FOR THE UNIQUE DEMANDS THAT BACKCOUNTRY HUNTING REQUIRES

EXO MTN GEAR

WE ARE CONSTANTLY SEEKING TO BALANCE DURABILITY, LIGHT WEIGHT, WATER-RESISTANCE, AND LONGEVITY IN OUR PRODUCTS, AND CORDURA® FABRICS ALLOW US TO ACHIEVE ALL OF THAT, AND MORE.

Exo Mtn Gear pack systems are built for the unique demands of backcountry hunting. A backcountry hunter faces the unique challenge of needing a pack system that is light enough to carry over countless miles, versatile enough to handle a wide variety of gear, and strong enough to pack heavy loads of meat at the end of a successful backcountry hunt. We are proud to build our pack systems in the USA with an industry-exclusive Titanium frame, unparalleled adjustability for fit and comfort, and uncompromising durability.

FIRSTSPEAR

THE FIRSTSPEAR WANTED A TOUGH, LIGHTWEIGHT MATERIAL THAT HAD A PROFESSIONAL APPEARANCE THAT INSPIRED CONFIDENCE WITH THE ARMED PROFESSIONALS

THE FIRSTSPEAR ARMS CASE IS NOT ONLY THE PERFECT STAND-ALONE TRANSPORTATION CASE FOR YOUR CARBINE OR RIFLE AND ACCESSORIES BUT CAN ALSO BE INSERTED INTO SEVERAL DIFFERENT HARD CASES AS A MODULAR PADDED INSERT THAT CAN BE ARRANGED TO YOUR SPECIFIC NEEDS.

The FirstSpear Arms Case is designed to be an organizing carrier for small arms, its shape and dimensions are such that it corresponds to fit within specific hard cases sold by Pelican/Storm/Hardig. FirstSpear wanted a tough, lightweight material that had a professional appearance that inspired confidence with the armed professionals who rely upon our equipment in the training and execution of their jobs. For the creation and manufacturing of the FS Arms Case 500D Solution Dyed CORDURA® was employed, whether used inside the hard case or transported on its own this material performs and is more than worthy of bearing the label First Spear upon it.

KITANICA

THE DESIGN, FIT, FUNCTION AND DURABILITY OF THE MARK IV MAKES THIS JACKET THE BEST AND PERHAPS THE ONLY ADVENTURE ARMOR ON THE MARKET.

KITANICA USES CORDURA® FABRICS BECAUSE THEY ARE THE LONGEST LASTING, TOUGHEST FABRICS THAT OFFER THE BEST BALANCE OF WEIGHT-TO-DURABILITY AND ABRASION RESISTANCE. FOR THE MARK IV A URETHAN COATED 1000 DENIER CORDURA® FABRIC IS USED FOR THE BODICE AND REINFORCEMENT ON THE SHOULDERS, CUFFS AND ELBOWS.

The Kitanica MARK IV began as a ranch jacket designed to outlast the heavy cotton duck work jackets that are compromised by moisture and heavy use. Today's MARK IV is more than capable of handling the rigors of the ranch, but its design has progressed and built for adventure in whatever form that takes for you: motorcycling on or off-road, overlanding, ranching, shooting and equestrienne. It is made of 1000D CORDURA® Fabric, so you only need to buy one that will last you a lifetime. KITANICA's incredible quality construction, features like 12 pockets, exterior watch attachment PALS on the forearm is available with KITANICA's proprietary elbow padding system. The spine pad is a signature makes this jacket an incredibly versatile garment with enhanced the utility beyond any other jacket on the market.

LYNX DEFENSE CORPORATION

OUR PRODUCTS ARE MADE FOR FIREARMS ENTHUSIASTS WHO TAKE
MULTIPLE FIREARMS TO AND FROM THE RANGE.

USING THE RIGHT MATERIALS IN OUR RANGE BAG IS THE KEY TO MAKING THE
BEST PRODUCT MONEY CAN BUY. WE AIM TO MAKE EVERY RANGE BAG THE
BEST BAG YOU'VE EVER PURCHASED.

The Lynx Defense Pistol Range Bag is our flagship product. Our customers' favorite item, it offers ample storage space and the ability to carry multiple handguns to and from the range. we made the pistol range bag the perfect size. With its small footprint, you may think it won't hold all your range gear, but our customers have told us time-and-time again that it's the perfect size range bag. The bag also has two side pockets that provide ample storage space for all of the gear you take to the range.

We use official CORDURA® brand fabric in our pistol range bag, and it's made to the highest quality and specification in the United States. Lynx Defense primarily uses 500 Denier CORDURA® due to its proven durability. We source every thread, zipper, piece of velcro, and fabric from American companies making their products in the USA.

SPIRITUS SYSTEMS

BRILLIANCE IN THE BASICS

The LV/119 OVERT provides a user configurable, multi-role plate carrier that is scalable for use in semi-permissive or non-permissive environments. The LV/119 offers a solid core for an entire ecosystem of supporting products built for the Warfighter.

When designing a new product, the Spiritus Systems design team is searching for high quality materials that are both robust and lightweight. The team selected 500d CORDURA® Nylon as the base fabric for the LV/119 series of products because of its decades old service record, exceptional performance and longevity in austere environments.

STRATUS SUPPORT INDUSTRIES

WHO WANTS TO THINK ABOUT THE TRANSPORTATION AND STORAGE OF YOUR PARACHUTE EQUIPMENT WHEN YOU'VE GOT A MISSION TO EXECUTE?

One of the most overlooked products used in military freefall parachute operations is the parachute kit bag. Who wants to think about the transportation and storage of your parachute equipment when you've got a mission to execute? Well, we do. We tried to think of everything, large volume, lots of pockets, comfortable shoulder straps, but most importantly an integrated stuff sack for the canopy to reduce damage. We like to think that the small details are just as important as the big ones. And we exclusively use the CORDURA® brand of fabrics.

THE BIG ONES**

Stratus Freefall Parachute Kit Bag / SFPB-L

- REPLACES THE ISSUED KIDNEY PAD USED WITH THE ALICE PACK FRAME
- UTILIZES 1.5 IN. PADDING FOR MAXIMUM COMFORT
- DUAL ADJUSTABLE FRONT BUCKLE
- SIDE WEBBING ATTACHMENT POINTS ALLOW ADDITIONAL MODULAR GEAR TO BE ATTACHED DIRECTLY TO THE BELT
- UTILIZES TWO EASY TO USE ADJUSTABLE BUCKLES THAT REPLACE THE AWKWARD 'RATCHET' STYLE ATTACHMENT SYSTEM ON ISSUED KIDNEY PADS
- AVAILABLE IN COYOTE BROWN AND OD GREEN

Super Belt
Mill Style Number: 32002

TACTICAL TAILOR, INC.

THE SUPER BELT IS A MUST HAVE FOR ANYONE SEEKING MORE COMFORT AND DURABILITY WITH THEIR ALICE OR MALICE PACKS

Primarily constructed using 1000-D CORDURA®, the Tactical Tailor Super Belt replaces the issued kidney pad that is used with the ALICE pack frame but with a number of improvements. Most importantly, our Super Belt utilizes 1.5” padding for maximum comfort. Other features include a dual adjustable front buckle and side webbing attachment points to allow additional modular gear to be attached directly to the belt. Two easy to use adjustable buckles replace the awkward ‘ratchet’ style attachment system on the issue kidney pad. The Super Belt is a must have for anyone seeking more comfort and durability with their ALICE or MALICE Packs. Available in Coyote Brown and OD. Tactical Tailor can ship internationally, but there are several international dealers as well. Dealers can be found at:

TARDIGRADE TACTICAL

IN AN EVER-CHANGING ENVIRONMENT, WORKING WITH SPECIAL OPERATIONS FORCES
CAN RESULT IN PRODUCTION CHANGING FROM DAY TODAY DEPENDING
ON NEW OPERATIONAL REQUIREMENTS.

Tardigrade Tactical is a design and production company based in Denmark we serve primarily military and law enforcement customers that rely on our products being of high quality and with a high level of durability. This is why we utilize CORDURA® in almost all of our products. CORDURA® allows us to push our designs and manufacturing methods even further.

Product showcase: the Tardigrade Tactical – Light Weight Dump Pouch is a pouch made for dumping empty magazines or other types of equipment that has to be stowed away quickly. The high strength of the CORDURA® from HLC Industries, allows the pouch to be durable and still flexible enough to be able to narrow down the top of the pouch, securing the contents from falling out during movement.

THE KHARD MEDICAL INSERT SYSTEM IS A TWO-PIECE
INSERT DESIGNED TO FIT THE 30L AND 45L
ARC'TERYX FAMILY OF ASSAULT
AND KHARD PACKS.

KHARD Medical Insert System

VELOCITY SYSTEMS

THE OUTER SURFACE OF THE PLATE CARRIER IS MADE OF 500D CORDURA® FABRIC FOR WEIGHT, DURABILITY AND LONGEVITY. WE ALSO USE CORDURA® PRODUCTS TO MAINTAIN OUR BERRY COMPLIANT STATUS.

The KHARD Medical Insert System is a two-piece insert designed to fit the 30L and 45L Arc'Teryx family of Assault and Khard Packs. The main insert piece consists of six pouches that have the following features: two pouches with external, adjustable shock cord for attaching tourniquets or other odd shaped items, two pouches with external, one-inch elastic loops for retaining airway devises, chemlites or other similarly shaped items, one pouch with external bandage scissor retention and one pouch with an external clear see through sheet for checklist or other items that need to remain visible. All six pouches have VELCRO® brand loop fasteners for attaching pouch contents name tapes. This insert can be used as a standalone medical contents kit for aid stations or casualty collection points via three one-inch d-rings that allow it to be hung up on a wall or similar surface. The second piece of the system consist of two pouches on a single backing that attaches to the lid/front flap of the pack. The two pouches feature an external clear see through sheet for checklist or other items that need to be visible and have VELCRO® brand loop fasteners for attaching pouch contents name tapes. When removed these two pouches fold in half and lock together with VELCRO® brand fasteners creating a grab and go smaller med All hook and loop material used is color matching Velcro® Brand Fasteners. All materials and workmanship are 100% made in the USA.
