LOCKED IN COLOR

What law enforcement
officers wear can make or
break their success.

Whether protecting them from
harsh conditions in the field or
keeping their position under cover,
what they wear is just as
important as what they carry.

Constructed through a
variety of technologies,
CORDURA® TrueLock™ Fabric
combines tear and abrasion
resistance with IR (infrared)
reflectance and both shade
and NIR (near infrared)
requirements to create fabrics
whose colors stay true and
are as high performing as the men
and women who wear them.

Available in a palette of 8 military
colors, CORDURA® TrueLock™ Fabric
colors live up to their names: the
colors stay true. From webbing
to buckles to straps, because
CORDURA® TrueLock™ Fabric uses an
innovative dyeing process in which
the color is inherent to the fiber, the
colors won't fade and will be uniform
across all applications.

DELIVERING EXCELLENT COLOR DURABILITY

THE BENEFITS

- UV COLOR FADE
RESISTANT
- ABRASION RESISTANT
COLOR
- MULTI-COMPONENT COLOR
CONFORMITY
- SUSTAINABLE DYEING
PROCESS
- DULL MATTE APPEARANCE
REDUCES DAYLIGHT DETECTION
- NIR CAPABLE
